

## IMMIGRATION TALK AT THE CAPITAL

### SENATOR TILLMAN'S PROPOSED TAX IS DEFEATED.

**Strong Speech in Its Favor—Foreigners Who Wish to Come to United States Will Have No Restrictions Placed on Them—Senator Morgan's Sarcastic Comments.**

Washington, June 30.—After tedious consideration of the tariff bill throughout Tuesday the senate wound up with a half-hour of lively and amusing colloquy between Senators Tillman of South Carolina and Chandler of New Hampshire. The former had proposed an amendment to the tariff bill providing \$100 head tax on immigrants and a restriction against all those not coming to the United States to become citizens. Mr. Tillman spoke of the miserable condition of the coal miners of Pennsylvania, and read from official reports saying many of the miners were compelled to live like beasts. And this, exclaimed Mr. Tillman, derisively, when senators were framing their laws for the protection of American labor and American industry. He closed with a gloomy prediction that if the tide of immigration was not turned back the country would be torn by revolution and bloodshed and a repetition of the Paris commune.

After some sharp cross-firing Mr. Tillman's amendments were rejected—3 to 48. The three votes in the affirmative were Butler, Quay and Tillman. When Mr. Quay voted for the amendment there was a hearty laugh, in which the senator joined.

Several hundred pension bills were reported to the senate as the result of the first meeting of the pension committee since the present congress assembled. Three general pension bills were included, two of them amending the law of 1890 and another referring to proof in pension cases. Mr. Morgan (Ala.) commented on the fact that the men and women named in these bills must wait for relief owing to the inaction of one of the branches of congress. At this time congress was without the opportunity or liberty to pass one of these pension bills.

### Advices Sent of Corbett.

Washington, June 30.—The report prepared by Senator Hoar in the case of H. W. Corbett, claiming a seat from Oregon by appointment of the governor, has been printed for the use of the committee. After reviewing the situation in the Oregon legislature the report declares Mr. Corbett is entitled to the seat.

## FEAR THE BANNOCKS.

### Idaho Settlers Alarmed Over the Actions of Their Neighbors.

Washington, June 30.—Three hundred Bannock Indians have broken away from the Fort Hall reservation in Idaho, and their actions have alarmed the settlers in the adjacent territory. Gov. Steuneger has been appealed to for protection, and he has telegraphed the Washington authorities for assistance. The war department has been called upon for troops to go to the scene.

These Indians are the ones who figured in the Jackson Hole affair some time ago and had several skirmishes with settlers. A commission is now negotiating with them, as well as with some other tribes, for a cession of a part of their reservation to the United States. The commission has worked for many months, but the Indians generally have been found not to favor the scheme, and the commission's work so far as it has progressed has not been successful. The Bannocks' reservation is located down in the southeast corner of Idaho near the Wyoming and Utah boundary lines.

### Summer Session in Iowa.

Des Moines, Iowa, June 30.—The legislature will reconvene Thursday. The legislature took a recess to July 1 in order to postpone the time at which the new laws take effect until after they had been published in codified form. It was the original idea that the session would last but a single day. It is probable, however, that the regents of the state university will ask the legislature for assistance on account of a recent fire loss of \$150,000 and the destruction of the entire university library.

### Sensation at Kansas City.

Kansas City, Mo., June 30.—Mrs. F. M. Jackson, who is wealthy, was arrested charged with complicity in the killing of her husband, Fred J. Jackson, who was shot several months ago in Mrs. Jackson's apartments at the Woodland hotel by Dr. J. D. Goddard, who is manager of Mrs. Jackson's drug business. The warrant was sworn to by a brother of the dead man.

## WRECKED BY DYNAMITE.

### Three Buildings at South Scranton, Pa., Blown Up.

Scranton, Pa., June 30.—A dynamite explosion early Tuesday in South Scranton blew up the business block of Leon Olchowski, a double dwelling block owned by him, and a detached house owned by Michael O'Hara. The business block, a two-story building, was torn to pieces. Twenty other houses had all the windows blown out and plaster torn from the walls. The shock was felt all over the city.

The cause of the explosion is unknown, but Olchowski alleges that it was the work of enemies he made during political and church disputes in that section, he being one of the principals in troubles which led to a split in the Polish Catholic congregation. Olchowski was seriously injured in saving his wife, and his recovery is doubtful. Following the explosion the wrecked buildings took fire, but the firemen kept the flames from spreading.

In some of the houses the sleeping people were covered with falling plaster. The infant child of Michael Joyce was dangerously injured, and a little son of John Klein almost suffocated. The total loss will reach \$25,000. The ruins are being cleared to ascertain if there are any victims buried in them.

## BRITAIN WILL HELP.

### National Review Says Aid Will Be Given Bimetallism.

London, June 30.—The next issue of the National Review, the leading bimetallic organ in this country, will contain an article announcing an important bimetallic development at the hands of the United States monetary commission, consisting of Senator Wolcott, former Vice-President Adlai E. Stevenson, and Gen. Charles Jackson Paine, which will arrive here in a few days.

The American commission, so the National Review asserts, "will present to the British government a joint statement from France and the United States, declaring their intention to determine the disastrous experiments inaugurated in 1873, and claiming our good will and active concurrence."

The National Review adds: "We are able to announce that Great Britain's reply will be that the government is willing to reopen the Indian mints, to make a further substantial contribution to the rehabilitation of silver by extending its use in Britain, by increasing the legal tender of silver, making silver the basis of notes, and empowering the Bank of England to use its silver reserve, and that material assistance and strong moral support will be given to the object the United States and France have in view."

### Allege It Is Cannibalism.

New York, June 30.—Dr. F. R. Ferguson and Coroner's Physician O'Hanlon held an autopsy on the mutilated trunk of the murder mystery in the morgue, and after they had finished Dr. Ferguson said: "I think that this was a case of cannibalism. I think the case is in every particular the same as that of Susie Martin, which occurred in March, 1894. I believe this body was cooked for the purposes of cannibalism, and, further, that the same hand that murdered Susie Martin wielded the saw and knife in this instance."

## ALL WERE DROWNED WHEN VESSEL SANK

### FEW PERSONS ESCAPE FROM WRECKED SHIP ADEN.

**One Boat Load May Be Afloat—Drowned and Missing Include Twenty-Five Passengers, Twenty Officers and Twenty-Three Natives—Indian Government Steamer Rescues Some.**

Aden, June 30.—The Indian government's steamer Mayo, sent out in search of the missing steamer Aden, from Yokohama April 28, via Colombo and Aden, for London, which was last heard of when leaving Colombo June 1 for this port, has returned here and reports that the Aden was totally lost off the island of Socotra, at the eastern extremity of Africa, on the morning of June 3.

The Aden carried thirty-four passengers from China and Japan. The captain of the wrecked steamer, some of her officers and seven white passengers were swept overboard and drowned soon after she ran ashore. Eight lady passengers, nine children, two officers and a few of the Aden's crew succeeded in getting away from the wreck in a boat, but they have not been heard of, and little hope, owing to the bad weather which has since prevailed, is entertained of their safety.

The Mayo saved nine of the Aden's passengers and three of the white and thirty-three natives of the steamer's crew. All of these persons were rescued just as the Aden was breaking up. In all the drowned and missing include twenty-five passengers, twenty European officers and thirty-three natives of the Aden's crew.

## INVOLVES 125,000 MINERS.

### Despite Denials a Great Strike Is Predicted at Pittsburgh.

Pittsburg, Pa., June 30.—Notwithstanding the denials of the local officials of the Miners' Association, it is alleged here that the national officers of the union will soon issue orders for a strike in five states. The edict, it is said, will go forth from Columbus that the men are to lay down their tools on Saturday. Nearly 125,000 men, it is said, will be engaged in this great conflict, and the battlefield will cover the bituminous coal centers of Indiana, Illinois, West Virginia and Western Pennsylvania. The mining rate asked for is 69 cents, based on the thin-veined district in Pennsylvania.

Patrick Dolan, president of the Pittsburgh district, said: "I am a member of the executive board, and no such action was taken at the meeting in Columbus last week. No word has been received, and, as far as I know, no strike has been ordered."

A special from Columbus, Ohio, says Secretary Pearce stated at the close of the conference that there would be no strike ordered.

### Three Killed, Five Hurt.

Adair, Ga., June 30.—The boiler of an engine attached to a threshing machine exploded Tuesday afternoon, killing three men instantly and fatally injuring four others, while another man had his leg broken, necessitating amputation. The cause of the explosion was low water in the boiler. All the dead and injured are white except one. The dead are:

TOM WEEKS, ALEXANDER WARWICK, SAM MILLS (colored). Those fatally wounded: D. C. Hamby, E. Hamby, Shade Towers, Zack King. Badly injured: Clarence Branch, leg broken.

### Grand Charge Recalled.

The purpose of the trip is to dedicate on July 2, the thirty-fourth anniversary of the regiment's immortal charge, the splendid monuments which the state of Minnesota has raised to their memory and glory.

He will also visit Oregon before returning to Salt Lake to attend the trans-Mississippi congress, of which he is president.

### Tacoma Bank Suspends.

Tacoma, Wash., June 30.—The Union Trust and Savings bank has suspended. No statement has yet been filed. Intimations are given out that the railroads have attempted more than ever such great systems can hope to perform and if late-comers fail to reach San Francisco in time for the Endeavor meeting it will be because the cars could not be secured for carrying the vast throng.

## TALK OF GEN. WARREN.

### May Lead Ohio Democrats in Session at Columbus, Ohio.

Columbus, O., June 30.—The Ohio Democrats opened their state convention here at 10 o'clock this morning. It is believed that there will be no recess or adjournment until a nomination is made for governor, if it takes all night as well as all day to dispose of that selection. It is reported this afternoon that Gen. A. J. Warner of Marietta, president of the National Bimetallic league, would be brought forward as a compromise candidate.

The Democratic state central committee gave a hearing to the representatives of the State League of Silver Republicans and finally adopted a resolution recommending that the committee on rules designate one place on the state ticket to be filled by the State League of Silver Republicans. It is probable that the silver Republicans will present, in accordance with this agreement, the name of Judge J. J. Harper of Washington Court House for Supreme judge.

The committee on resolutions have agreed on a platform. All the resolutions on Cuba, tariff and everything else were thrown away. The Chicago platform is reaffirmed, and that part of it which refers to the financial question is reincorporated in the same language as used at Chicago.

He tried to commit suicide Monday afternoon, while confined in the Dane county jail at Madison. He tried to jab a fork into his neck, but Jailer Burmeister seized his arm. Later it was discovered that Dresser had taken a strap from his bunk, and had arranged it in his cell so that he could hang himself. Dresser has served several terms in jail.

He was in jail awaiting sentence. Dresser is a character. Soon after he reached Madison he ingratiated himself into the good graces of Mrs. Mary L. Godding, a widow lady with four or five children, one boy nearly as old as Dresser, and they were finally married, since which Dresser has "burned" her money as rapidly as he could get hold of it.

Complaint Was Made

He has served a term in jail for drunkenness since his marriage. Divorce proceedings have been talked of. More than two weeks ago Dresser went to a resort on the "Midway" with a companion and took a room. He owed a bill of \$7 at the place, and in payment of this and the charge for the room he tendered what the proprietor understood was a check for about \$16, but which turned out to be a receipt for that amount which Dresser had obtained from one of his step-children. When the proprietor discovered his mistake he made complaint to the police, and on hearing the whole story Chief Barker secured a warrant for Dresser's arrest on the charge mentioned. He learned that the officers were looking for him and left town about a week ago.

Dresser was arraigned before Judge Donovan in the municipal court and pleaded guilty to the charge. Sentence was postponed until yesterday morning at the request of the defendant, who said he wanted to see his folks before he went away. His mother now lives in Madison. The penalty for his offense is one to three years in state prison, or a fine of \$200 to \$1,000.

Got Two Years.

Two years in state prison, at hard labor, with three days in each year in solitary confinement, was the punishment meted out to Dresser by Judge Donovan yesterday. Before it was passed, District Attorney Anderson called the court's attention to the fact that this was the sixth offense of which Dresser had been convicted in this court within two years, and the fourth within five months. In passing sentence the court roundly scored the young man for his general conduct as well as specific offenses, and told him that if he were not for the fact that he had pleaded guilty and saved the county trouble and expense, he would give him the limit, three years. Dresser's wife and her little daughter sat in the court room during the proceedings.

Dresser got out of his trouble in this city, the woman whose pocket book he was charged with stealing, refusing to prosecute him.

The details of the agreement are secret, and it is generally understood at present that Russia has taken the place of Italy in a new triple alliance.

## CHICAGO MARKETS BY WIRE

Robert Lindblom's Letter On the Condition of Crops and Trade.

Chicago, June 30.—[Special to Byrd & Law, Commission Co.]—A large cash business was reported yesterday, but it was undoubtedly incorrect, as the July wheat which is now practically the same as cash, was much weaker than offered futures. Foreign markets are absolutely callous to any bull sentiments, and they come lower again today. The July deal might as well be eliminated from speculative consideration. The longs will have all their wheat delivered to them before the end of July. Some of them may not wait, but they conclude to secure the premium which now exists and in such an event the difference will narrow as there is no short interest of any consequence in the market ready to absorb any considerable offering. The price of Sept. wheat in the immediate future depends on crop prospects. The general bullish tendency of everything will probably be suspended for a time on wheat September influence will assert themselves for a time in opposition to general influence which will be felt over a long period of time. At 65 cents for wheat barring special news it is safe to be short. I look for wheat to sell somewhat lower inside of 60 days, but in the meantime those who go long on breaks will have plenty of opportunities to sell at a profit. The market should be acted upon a scalping point of view without any prejudice in favor of either side. The market is going to be active and safe to operate on and trade is getting larger every day.

Corn is weakening under the extraordinarily favorable weather conditions which now prevail. The plant is still somewhat backward but not enough to be of any consequence provided the weather is favorable from now on.

The dues are paid quarterly and are but 25 cents. A policy of \$350 is carried by each lady and no member under the age of sixteen or over the age of fifty-five is admitted.

## A Practical View.

"There is no excuse," exclaimed the theater patron, "for having the waits between acts so long."

"That's exactly what I said to the last company that played here. It's very dangerous to let an audience go to sleep and take chances on being able to wake it up again."—Washington Star.

## A Setback.

## IS IT A TRIFLE?

That Common Troubl's, Acid Dyspepsia or Sour Stomach.

Now Recognized as a Cause of Serious Disease.

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to promptly digest it, the food remains until fermentation begins, filling the stomach with gas, and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Stuart's Dyspepsia Tablets and is now becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by druggists everywhere at 50 cents per package. It is prepared by the Stuart Chemical Co., Marshall, Mich., and while it promptly and effectively restores a vigorous digestion, at the same time is perfectly harmless and will not injure the most delicate stomach, but on the contrary by giving perfect digestion strengthens the stomach, improves the appetite and makes life worth living.

## SUFFERING WOMEN.

How Many of Them Have Quietly Obtained Advice That Made Them Well.

My sister, if you find that in spite of following faithfully your family doctor's advice, you are not getting well, why do you not try another course? Many and many a woman has quietly written to Mrs. Pinkham, of Lynn, Mass., stating her symptoms plainly and clearly, and taken her advice, which was promptly received. The following letter is a pretty strong confirmation of our claims:

"I had been sick for six months; one doctor told me I would have to go to a hospital before I would get well. I had female troubles in their worst form, suffered untold agonies every month; my womb tipped back to my backbone, had headache, hysteria, fainting spells, itching, leucorrhoea.

"My feet and hands were cold all the time, my limbs were so weak that I could hardly walk around the house; was troubled with numb spells. I have taken four bottles of Lydia E. Pinkham's Vegetable Compound, one bottle of her Blood Purifier, one package of her Sanative Wash, and am entirely cured. I have not had one of those numb spells since. Can you wonder that I sing the praises of a medicine that has cured me of all these ills?"—Mrs. LOUISA PLACE, 650 Belmont St., Brockton, Mass.

## Eighty-Seven Wolff-Americans

Are in daily use by street inspectors in New York city. The severe test of a year's continuous hard riding—summer and winter—over cobble-stones and the roughest roads—in all sorts of weather—under the most adverse conditions—demonstrates the durability of wheels more conclusively than pastime riding over good roads or track racing by paid riders.

Expert Janesville machinists are enthusiastic over the Wolff-American's construction. No other \$100 wheel has equalled Wolff-American sales in Janesville this year.

## "PARSON" DAVIES TALKS OF BOXERS

BEST MAN WON AT CARSON CITY.

Sullivan's Chance With Fitzsimmons Is a Very Slim One, as the Ex-Champion Weighs 280 Pounds—Wants to Match Choyinski Against The Lanky Champion in the Future.

Charles E. (Parson) Davies is at the hotel Myers. The man whose name has been heralded from one end of the land to the other as the greatest of pugilistic managers, stepped from the Oshkosh passenger train this noon. He is here in with the "A Bovey Girl" company which is to appear at the opera house this evening.

Clean shaven, white haired, and with a style of carrying himself that is all his own, the "Parson" is a man that night attract attention on any well traveled thoroughfare. To a Gazette representative the great matchmaker talked freely this noon while preparing himself in his room for his noon day meal.

Celebrate His Birthday.

"On the seventh of next month I will be just forty-five years old," smilingly remarked the "parson," "and I will celebrate the event in Chicago. As to prize fighting and prize fighters," he continued, "I think that I am about as well posted as the average man; and from having a personal acquaintance with the greatest fighters, it is plain to be seen that I have had the opportunities."

Speaking of the match arranged between Sullivan and Fitzsimmons, he said:

"I was not in the least surprised to hear that Sullivan made such a fighting proposition. He weighs today not less than 280 pounds while Fitz will tip the scales at 170 pounds, when he is in fighting trim. Because of the circumstances that are against Sullivan in this particular case, his chances of making a good howing are slim. The police proclamation was due to the fact that the proposed fight was not arranged in accordance with the boxing rules as laid down by the city of New York."

"Fitz" the Best Man

Davies was an interested spectator at the Carson City fight and said that in the Corbett-Fitzsimmons fight, he thought it was merely a case where the best man won.

"The crowds were not all that the management had wished for but when the bad weather and the high rates of transportation are taken into consideration I think that the crowd was far better than Stuart really expected," he continued. "At some distant day I hope to match Choyinski against Fitzsimmons."

From this city the "Parson" and his show go to Beloit, Racine and Kenosha, and then to Chicago where they close the season.

## NO JANESVILLE FOLK HURT

Local Delegation Was Not in the Chicago Wreck

No Janesville people were caught in the wrecked excursion trains at Chicago, details of which will be found on the first page of this issue. The Janesville people who left via both the C. & N. W. and C. M. & St. P. lines, connected with fast overland flyers before Chicago was reached. West Chicago is but a few miles from the city of Chicago. The C. & N. W. car from here was switched off at DeKalb, while the C. M. & St. P. car was attached to the through train at Davis Junction.

The Gazette was besieged with inquiries about the wreck when rumors of the accident reached this city, and many people spent anxious hours until details were received.

Rule Regarding Visiting Teachers and Assignments to Lodgings.

A circular has been issued by the officers of the National Educational association and the Milwaukee executive committee to the effect that no private accommodations will be furnished to persons living within seventy-five miles of Milwaukee, or to persons living in or near Chicago, except upon presentation of a N. E. A. membership ticket for the 1897 meeting. This was found necessary in order to protect the reception committee from the necessity of assigning places to a large number who were seeking to take advantage of low rates without joining the association.

## DARK DAYS.

O, what is the use of repining,  
Most clouds have a silver lining,  
Among weeds and grass we often find,  
The sweetest flowers all velvet lined.

O, what is the use of much sighing,  
Smiles to our loved ones ever denying,  
'Tis better even to force a smile,  
Than scar the face with tears all the while.

The sweetest smile I have seen in years,  
Crest over a face that was wet with tears,  
It sparkled like roses covered with dew,  
And cost a great effort this I well knew.

Dark days will come, dear ones must die,  
But a smile costs nothing; if we try  
To smother out the smouldering fire  
That burns and warms—all sweet desire;  
The plainest face may beautiful grow  
When lit with smiles 'tis all aglow.

We must "live" for our dear ones yet awhile  
And hide our grief behind a smile.  
EIBBA DROF.

## ROBBED OLD FOLKS OF THEIR SAVINGS

FARM HAND STOLE \$1,200 IN GOLD COIN.

Aged Man and His Wife Had Accumulated It Through Their Industry and Thrift During Half a Century—Joseph Harrington, an Employee, Spent It All.

Charged with robbing his aged benefactors of \$1,200 in gold, Joseph Harrington of Darlington, spent the morning in the Rock county jail. After partaking of a bread-and-butter dinner, the prisoner left in charge of Sheriff C. C. Bennett, for the state's prison at Waupun, where he will serve out a two years' sentence. Harrington is a man of medium height, well built and thirty-six years of age. For a number of years he has resided with a couple—who were each eighty-five years of age—on a little farm near Darlington. Years of labor on the part of this old man and his wife had made it possible for them to save up the snug little sum of \$1200.00 in ready cash—five, ten, and twenty dollar gold pieces. Not having much faith in the banks, they secreted the cash in a little trunk that was stored away in the garret.

Harrington Stole It.

Harrington, who for the past six years has worked on the place, was trusted by the old couple and was given the freedom of the house. In spite of the fact that the salary was small, Harrington always seemed to have plenty of money about him and spent it freely. It was always noticed that he had gold, as he seldom offered a bill in payment of a debt. Last January this aged couple had an occasion for going to their trunk and were horrified to find that all their money was gone.

Sheriff Bennett then took the case in hand and through his clever work Harrington was arrested. His conviction followed in spite of the fact that the evidence in the case was all circumstantial. Harrington turned over property to the aged couple amounting to \$250.00 but he managed to spend the \$1200.00 in gold one piece at a time.

## MRS. WARD IS CRAZY THE DOCTORS SAY

SAD CASE OF THE ORFORDVILLE WOMAN.

Relatives Cannot Keep Her At Home, and She Is in Poor Physical Condition to Be Tramping About the Country On Foot—Taken to Mendota Today.

Mrs. Lawrence Ward was removed to the asylum at Mendota hospital for the insane this morning by Sheriff Acheson. A commission of physicians yesterday examined Mrs. Ward, and decided that she was insane. Accordingly Judge J. W. Sale immediately issued the necessary commitment papers.

Mrs. Ward has of late resided both in this city and at Orford. Her queer actions have attracted much attention, and she has annoyed local firms a good deal with her freaks of fancy. She is a woman of 42 years of age, has two sons and two daughters, and she is the wife of Lawrence Ward, who recently sued the St. Paul railroad company for \$7000 for the loss of his toe. Relatives have thought that Mrs. Ward was not in her right mind, but they disliked to take any action in the matter for fear that the accused would hear of it and leave the country or do herself injury.

Made Scene at Bank.

On several occasions of late she has wandered from her Orford home to this city, and in nearly every case she has made the trip on foot. A few days ago she walked into the First National bank, where she was demanding a sum of money, when Chief of Police Hogan arrested her and placed her in jail. But this is not her only escapade here. On several occasions she has been arrested by the local police for creating various disturbances. It is the hope of the friends of Mr. and Mrs. Ward that the change and treatment may be of benefit to her, as she is in very poor physical condition to wandering about the country, and cannot be kept at home.

## TRIMMINGS AND COSTUMES.

## Narrow Velvet Ribbon—New Variations of the Bolero.

The passion for narrow velvet trimming increases. It is a fad of the season. Parasols, as well as gowns, bodices and petticoats, submit to it. The velvet is put on usually in several rows, although a single band is sometimes used to edge a narrow ruffle or plaiting. The repeated rows are put vertically or horizontally on skirts, form vandykes or outline an apron shape, while on bodices they indicate a bolero yoke, ornament plaits or give a bustle effect. They separate the puffings of

TAILOR MADE GOWN.

sleeves and divide lace insertions, and, in fact, are utilized in every possible way, in all colors, although black is preferred.

It has been repeatedly said that the bolero has worn itself out; that the rage for it was too violent to be lasting. But it still reigns triumphant, and every day shows developments of its possibilities.

Today's sketch illustrates a tailor made costume of sable cloth. The foot of the skirt is trimmed with stitched vertical bands of white cloth, and three similar bands are arranged in the form of a short tablier. The double bolero of sable cloth is trimmed with stitched bands of white cloth and has revers of white cloth forming a sailor collar at the back. The sleeves are of sable cloth, with turned back cuffs adorned with white cloth straps. The bouffant chemise is of pale blue mousseline de soie, the soft, wide belt of white satin closed by a gold buckle. Frills of lace finish the neck and wrists. The hat of white straw is trimmed with pale blue glace taffeta and large pink flowers.

## CONCERNING SKIRTS.

## How to Cut, Baste and Finish Them. Checked Mohair Costume.

The amplitude of skirts is somewhat modified and their stiffness very much so. The fullness is all carried around to the back, the front and sides being smooth, straight and carefully fitted.

In cutting out a skirt, the edges of the breadths should always be first ruled with a ruler long enough to go from top to bottom, for any irregularity in the seams of a skirt spoils its appearance and prevents it from hanging well. In basting the seams,

WALKING COSTUME.

lay the two edges together on a long table, the bias edge uppermost, if a straight and a bias edge are to be joined, and baste them while they are lying flat. If the goods are very thin, like gauze or muslin or any sort of light silk, baste at the same time a narrow strip of paper along the seam. Stitch through this paper, which will prevent the machine needle from gathering the material. The paper may be easily removed afterward.

The stiffening has almost entirely disappeared from skirts. They are no longer as rigid as if they were made of wood, but have a degree of suppleness that is much more desirable. A haircloth facing five or six inches wide is put around the foot of the skirt to prevent it from clinging too closely to the ankles, but this is the limit of stiffness. The wires and various other contrivances for expanding have entirely disappeared. Indeed, the wires never met with any favor among well-dressed women, as the effect was disagreeable, and with sufficiently good linings no such arrangement was needed for sustaining the skirt.

The illustration given today shows a costume of brown and white checked mohair. The skirt is trimmed around the foot with two bands of brown mohair braid, and is additionally decorated with four bands of braid outlining a short apron. The bolero of checked mohair is short behind and slashed in front, showing a chemise of white plaid mousseline de soie. The sleeves are ornamented with creases of white gauze. Passementerie cords and buttons complete the decoration. The collar and the jacket are of plaid white gauze, the cuffs, collar and belt of brown velvet.

## The Windows of Our Homes.

The windows of a country house, or even of the city summer house, are very well worth consideration, and just now the woman who is doing up her portieres and lace curtains in camphor is also deeply interested in thin and pretty materials for hot weather hangings.

Bead draperies for summer houses usurp every doorway, shut out the ugly view of the fireplace and hang very close against the sashes of windows, to take the place of holland shades. Decorators have come to employ them lavishly, first, because a bead curtain is the coolest and cleanest of all hangings, they are not costly, they outlast any woven goods, and as they are now manufactured they are pretty beyond words. One of the most delightful possible effects to arrive at in draping a hall door or a long French window is to suspend there a portiere of blue beads. Pale blue up near the pole, but a rich dark blue near the bottom, while across this azure background a flight of swifts or swallows wing their way. Such a portiere is made of beads solidly, with no joints of bamboo introduced, and, while it shuts out a view of the interior completely from a person outside the door or window, to one within it merely reveals the road, street or garden through a blue mist.—Philadelphia Times.

## The Summer Baby.

The health of the baby, always of importance, becomes a matter of patient study and anxious thought as the warm weather approaches. A middle aged, hard headed physician was recently discussing the subject with a well meaning but flighty young mother and expressed himself thus: "Just leave him alone. Don't worry his temper into a passion and his nerves into fiddling with fussing. Have plain clothes—no ruffles and laces that will have to be changed four times a day. If he belonged to me, he would have a gingham gown and a sunbonnet and be turned loose in the garden, there to stay until the sun got too hard or meal or nap time came around. Have him sleep on a hair mattress and a hair pillow—no feathers or eider down to make him a good subject for pneumonia and sore throat, croup and fever. Don't let every woman in the hotel kiss him. Don't wheel him around in his carriage all day. Let him dig and get close to Mother Earth, and I don't think he will be quite as white or quite as thin as he is now when you come back in September."—New York Commercial.

## Aigrets In Demand.

A New York exchange says: The women's clubs which have been so valiantly waging war against the practice of wearing osprey feathers and aigrets here received a great deal of praise from the Audubon society. But what will they say to this arraignment from The Millinery Trade Review:

"The person who remarked that 'no womanly woman would go about with her hat adorned with osprey feathers, or aigrets, as they are called,' possibly gave no thought to the poor seals who are yearly butchered simply to make her a sealskin sack, the delight of a woman's heart, or the kids whose skins she wears upon her shapely hands, or the skunkskin, fashionably called marten, she wears as a boa or collar about her neck, the calfskin that covers her dainty feet or the parts of other animals she wears about her person. 'Consistency, thou art a jewel.' If Dame Fashion paid much heed to the effusions of the Audubons and the Civitas, we would all go without clothes. Aigrets are in greater demand than ever and will continue so until fashion cries, 'Enough.'"

## PERSONAL

....NO. 1....

For all wrongs there is a remedy, and Nature furnishes it in VITAE ORE, which is the most powerful, effective and only natural antiseptic known. It reaches the Nidus of man's so-called incurable ills, as nothing ever before offered has, as is proven by the thousands of testimonials I print,—and which I offer \$500.00 for successful contradiction of.

It is a re-vitalizer, re-life giver, restorative of strength and energy, a natural nerve tonic, blood cleaner and microbe killer.

V-O. fawns for no favors and quakes at no frowns, and I defy any quack doctor, or any combination of them, to assail me. No honest and disease-curing, Christian physician will question its power and efficacy in the cure of ills no drugs will relieve. Hundreds of this class buy it of me in bulk.

I want to reach every honest debt and tax paying citizen in the world with a free sample package, who needs so great a boon, and who will promise to use according to directions, and report results in 15 days time, and who will also promise to order from me, if a benefit is derived, and also aid me in reaching others in the same way.

I am in no fraud business, and I will not be defrauded by anyone, without appealing to the Postoffice authorities to punish the parties defrauding me by the use of the mails, as I would be punished if I used them to defraud you. The same law that protects you, protects me. I ask for not a cent, until I convince you that V-O. will benefit you by furnishing the proof at a cost of more than a dollar to myself. I am no lightning-rod-Hungarian oats-patent-gate-churn-fence or gold-rod man. The book of my life is an open one, and I know no reason why I should not refer to it with pride, in view of the fact that so many have been pleased to say that I WAS AND AM THE ONLY HONEST MAN IN THE MEDICINE BUSINESS THEY EVER HAD DEALINGS WITH. But I am not in the quack nostrum drug business.

I want an agent in every community—a middle-aged man or woman—whom I can trust, and who are trusted by their neighbors. Address,

## Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains the "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

## FASHIONABLE MATERIALS.

## Materials For Mourning—Becoming Round Bodies and Close Corsets.

The list of goods worn by persons in deep mourning comprises, besides crepe, all black materials with a dull, plain surface, such as woolen crepes, crepons, chevots, gorges, cashmeres, henriettas and amoures. These are, of course, trimmed with crepe. Batiste, organdie, satin and cotton crepon are admissible for warm weather wear. For the next mourning period coming between deep mourning and half mourning black fancy wools may be worn, trimmed with dull finished black silk. Peau de soie, grosgrain, dull surah and black and white silk and wool goods are also used.

CARRIAGE WRAP.

with trimmings of black lace, dull black ribbon, passementerie and dull jet. As trahhan is allowable among furs. In half mourning all black silk materials and velvets, woolens, etc., in all tones of violet and gray are worn, the trimming being lace, mauve or violet flowers, ostrich feathers, jet and similar adornments.

The bolero is by no means out of date, whatever may be said to the contrary by modistes who are weary of making it or do not know how to do so properly. Like all becoming fashions, it is a lasting one. Much has been uttered with regard to the disappearance of the bolero differing from the skirt, but it is still here and still approved by the best authorities, because it is pretty, becoming, useful and convenient.

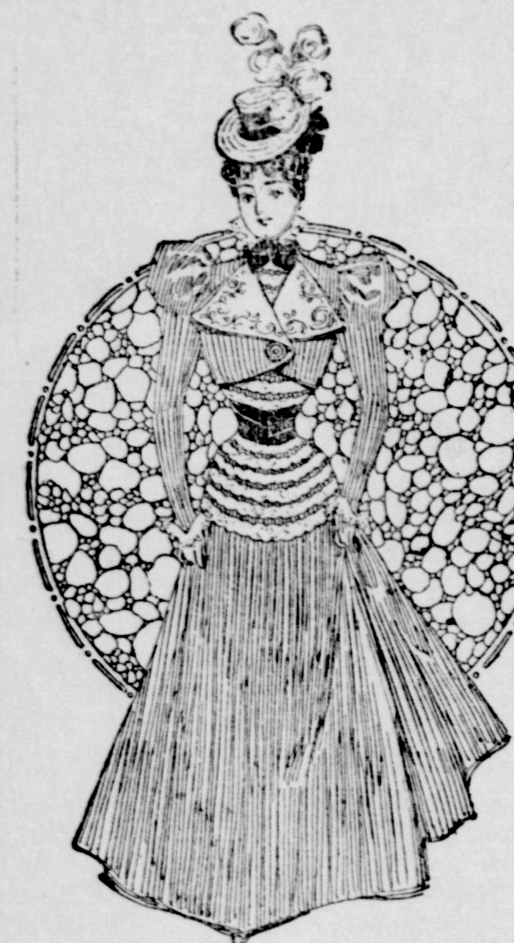

The illustration shows a novel carriage wrap for summer wear. It is of green and blue changeable taffeta and extends from neck to foot. The back is laid in plaits at the shoulders and waist, while the front is gathered, the garment being held in to the figure by a corset of green satin passed through a long gold buckle behind and tied in front. The cape sleeves are bordered with an application of ecru guipure, and the large collarette of fine plaitings of black mousseline de soie is ornamented behind with a bow of green satin and tied in front with ribbons which are fastened against the waist. The toque of pink flowers is trimmed with plaitings of changeable taffeta. JUDIC CHOLLET.

## SUMMER MODES.

## Short Capes of Black Satin and Mousseline de Soie.

Embroidered linen, openwork or with valenciennes lace insertions, is one of the season's fashionable favorites. It is often accented plaited and is always made over a silk lining of a decided color.

Skirts are more and more trimmed. A favorite style is the simulation of a tablier by ruffles, plaitings, galloons or flat applications of lace insertion. Skirts tight around the hips open lower down over quilles of plaited lace or mousseline de soie. Skirts intended for walking and

OUT OF DOOR COSTUME.

traveling are more charily decorated. The seams are covered or are open front simulated by mohair galloons. Sometimes the foot is cut in scallops or points over a plaited ruffle of taffeta.

Capotes are so varied that the subject is well nigh inexhaustible, and there is always something new to say about them. They are very short, as has been previously mentioned, and therefore display a small waist to advantage. One of the newest models forms a bolero in front and at the back and has cape sleeves, very full. The dominant styles are the black satin and mousseline de soie cape and the cape of changeable silk covered with tulle and applications of lace. Sometimes the color matches that of the gown and the material also.

Capotes made of cloth are longer than the more fanciful, furbelowed ones. They are lined with light silk and trimmed with straps, galloons and stitching. A novelty is shown in the fashion of capotes of white cloth decorated with gold. Capotes of beige, suede or white cloth decorated with revers and collar of cloth of an entirely different color are also something quite new. These are worn with a costume of the same colors, of wool or cloth, and little trimmed.

The costume illustrated is of pearl gray cashmere. The skirt has a simulated yoke composed of bands of narrow guipure insertion. The blouse bodice is covered also with bands of guipure, the bolero being of plain cashmere, with large revers of white satin embroidered with steel. The cravat and belt are of peacock blue velvet. The sleeves form points over the band and are finished by ruffles of guipure. JUDIC CHOLLET.

## Andree Again Ready.

Mr. S. A. Andree, the intrepid Swedish explorer, is now on the northern shores of Spitzbergen preparing for his balloon trip to the north pole. He was to have made the attempt last year, but

unfavorable winds prevented a start. Dr. Ekholm, who was to have gone last summer with Andree, has backed out, but his place has been filled. The balloon has been enlarged and improved, and it is hoped that the daring flight may be begun early in July if not sooner.

## Old, but Active.

Mrs. Susan E. Parker, the only sister of the late Samuel F. Smith, D. D., author of the national anthem "America," celebrated her ninety-first birthday on March 17 at her home in Roxbury, Mass. For several years Mrs. Parker has been unable to leave her home, but with mental forces unabated she keeps informed in regard to all matters of public interest. Born in Boston and living here during all her many years, she has witnessed the wonderful growth of educational and reform movements cradled in this city. She has been a generous contributor to many good causes, but the education of the colored race seems to lead all others. During the past year she has made over 300 garments for the children of a mission school in Georgia.—Boston Letter.

## Opals and Peacock Feathers.

These are certainly the days of short snift with superstitions. Opals have become one of the most fashionable of stones, the widely spread and long existing idea that it was ominous to own them even, much less wear them, having quite passed away. An advantage possessed by these gems over all others is that they cannot be imitated. A paste or any other sort of falsified opal does not exist. With the passing of the opal bogie has gone, too, the ban under which peacock feathers have long lain. Decorators delight in the rich colorings of these plumes and have done much by their persistent use of them in carrying out effects, to do away with the nonsensical belief that they are unlucky to have about.

Mr. Isaac Horner, proprietor of the Burton House, Burton, W. Va., and one of the most widely known men in the state was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered, my physicians told me that nothing could be done and my friends were fully convinced that nothing but death would relieve me of my suffering. In June 1884, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain-Exterminator. At this time my foot and limb were swollen to more than double their normal size and it seemed to me my leg would burst, but soon after I began using the Pain-Exterminator the swelling began to decrease, the pain to leave and now I consider that I am entirely cured. "For three years we have never been without Colic, Cholera and Diarrhoea Remedy in the house," says A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., "and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and anyone who tries it will find it so." For sale at C. D. Stevens' pharmacy, corner Main and Milwaukee Sts.

Very simple, but—now every rider should remember these two "buts," or he will fail:

Before injecting cement, pump up the tire. If you don't, the inner tube will be flabby, like this,

and the cement will not get inside of it, where the repair strip lies.

When you have a puncture, get right off. Riding a tire flat, when it has a tack or nail in it, may damage it considerably.

By injecting M. & W. quick-repair cement through the puncture into this inner tube, and then pressing down on the tire with the thumb, like this,

the repair strip inside is picked up by the cement, thus closing the puncture, like this:
